Attamen plures medicum docentes
Tunc omnis artem: furantque plures
Qui professores ~~[illegible]~~ medicos doctores
Se profitentur
~~Rite peritos~~.

~~Atque~~ quid confert curare morbos, Experte
Consulit id tantum grandes dolores,
Et rerum ullos vehementiorem
Esse curam.

Namque nunc tales totidem, ut [illegible]
Esse vocant quoque [illegible], [illegible]
Mortis ~~[illegible]~~ [illegible] [illegible] [illegible]
Scandere multos
Abditum vix s. modo novit alto
Corpore quisque:

Maximis sit terrae implicatus
Vinculis [illegible] [illegible], nec ulli
Parit, et perdit penitus labore
Assiduo.

Seculo etiam nos vigiles in umbra
Mortis aggressus velut imperator
Circuit, quaerens sit an ullus ore
Cui perdat atrox:

Nunc tamen contra medicamen offert
Corporis praesens: atque noster
Languidis curam: [illegible] [illegible]
Praebere Jesus.

[illegible]

Misit et plus divinus medelam,
promptam
Corda quae mentis maculis piarent
et probent
Vivumque gratum [illegible] nimirum
[illegible]
Vulneri ... plagis [illegible]
Vulnera nostro tribuens ligamina
Herbis illustrem medicus artis [illegible]
Indidi [illegible] vires
omnibus herbis.

Debet etenim [illegible] medere — adhibere curam
Et [illegible] medicatus annos — Et tibi praesens.
Plurimos [illegible] dominus [illegible] — vel longo
Talia proferet.

Hic tibi, lector bone, [illegible] sunto,
Ut tu morbi vitiis possis,
Lucem [illegible] statuit [illegible]
Nostri fontem.

Non sibi soli volunt exposita
Ista servari bona: sed salute
Universorum bene [illegible]
Publica vulgat.

Retibus [illegible] lupus, ubique praeda
[illegible] tolli cupit [illegible] omni
Sic fide morbo [illegible]
Comprehendunt.

Et fors indoctus [illegible]
Ferrum et vulgus [illegible] imperitum,
Spes [illegible] [illegible]
Ludificat.

gratus [illegible]

~~Tuque~~ [illegible] legito libellum,
[illegible], [illegible] [illegible],
Morte, [illegible] nulla semper
posset [illegible].
