Management - Online**

Wwe Ü 2 Mi 14-16 H 7.321 **Böhler**

**Art der Prüfung:** Multimediale Präsentation

### **Kommentar:**

Many global corporations recruiting economics and business graduates today are searching for people endowed both with a high degree of technical competence and interpersonal finesse. This course will encourage participants to approach business issues as leaders who must be able to play and balance contrasting roles - i.e. directing, supporting, stabilizing, and innovative roles in line with culturally based corporate strategies. The learning objective is to enhance competence in applying strategic concepts to practical cases. The methodical emphasis is on stimulating and developing the relevant communicative competencies through discussion and practice in groups.

Course Requirements:

- Regular class participation
- teamed in pairs, the participants will jointly present a topic in 30 minutes and submit a critical analysis (approx. 8 pages, with separately signed contributions for grading, submitted one week in advance of presentation.)

Quality Management in Europe

This course aims to provide a pragmatic knowledge of Quality Management as a program for eliminating defects, reducing waste, achieving consistent customer satisfaction, and improving economic value. It is structured around four parts. The core of the model reflects (1) the external and internal interfaces between suppliers and customers, and (2) the structural links between the business processes. This connectivity is based on cultural factors (3) commitment to quality, and (4) the communication of the quality culture. The philosophy of a total quality auditing process is exemplified by the European Quality Award self-assessment model and is compared with the Malcolm Baldrige system. The overview of systems and tools is illustrated by an excursion and by case studies based on real situations.

**Kommentar:**

This class will focus on the banking industry and the financial sector in selected European economies. In addition to corporate banking, the central banks and the forthcoming European central bank will be covered. In a contrastive way the important elements of the US/Canadian counterparts will also be discussed. Wherever possible current text material will be used.
