Art der Prüfung: Multimediale Präsentation

Kommentar:

Many global corporations recruiting economics and business graduates today are searching for people endowed both with a high degree of technical competence and interpersonal finesse. This course will encourage participants to approach business issues as leaders who must be able to play and balance contrasting roles - i.e. directing, supporting, stabilizing, and innovative roles in line with culturally based corporate strategies. The learning objective is to enhance competence in applying strategic concepts to practical cases. The methodical emphasis is on stimulating and developing the relevant communicative competencies through discussion and practice in groups.

Course Requirements:

- Regular class participation
- teamed in pairs, the participants will jointly present a topic in 30 minutes and submit a critical analysis (approx. 8 pages, with separately signed contributions for grading, submitted one week in advance of presentation.)
