Quæro octauò, Cur postquam triennio mortuus esset Iansenius, tum denique prima laudatio funebris habita sit? An non ideò ve cum satis valida argumenta thesibus non possetis opponere, per Declamatorem, quemadmodum paullo antè per Præconem, obstreperetur? Quaro nonò, An adeò sterile laudationis argumentum prabuerit Iansenius, ve magna orationis pars in Societatem inuectiva esse debuerit Quæro decimò, Qua ratione Iansenius & Ianseniam à periurio excusentur? Ratio dubitandi est, quia quasdam propositiones à duobus Pontificibus danatas in terminis docent, quas tamen solenniter eiurauerunt iuxta receptum morem Academiæ Louaniensis. Quæro vndecimo, An existiment Ianseniani Iansenium suum, quine-Canon que Philosophiam, neque Theologiam, vnquam docuit, sapuisse præ omnibus Doctoribus antecedentibus, Adriano VI. Pontifice, Driedone, Tappero, Dorpio, Latomo, Ioanne Leonardo Haffelio, Molano, Hunnao, seniore Iansenio, Cuyckio, Stapletono, Clario, à Castro, Maldeto, Ioanne Wiggers, Mercero, & aliis, qui Louanij per annos plurimos summâ cum laude docuerunt? Videntur existimare, quia contra hos omnes in vnius iurant verba Iansenij. Quæro duodecimò, An Ianseniani affirmates neminem è Belgio à cetum forte & amplius annis omnes veri Episcopi, quas Paulus ad Tim. & Tit. describit, dotes propius in se expressife, quam expressere lansenius, qui Episcopus non relpone toto biennio fuit; iniuriam non faciant Matthiæ Houio, Maximiliano & Guilielmo à Bergis, Ludouico Berlaymontio, Ioanni Sarraceno, Franindign cisco Buisseret, Sonnio, Torrentio, Mirxo, Maldero, Curtio, Druitio, detur Rodoanio, Marthiæ Lambrechts, Iansenio Flandro, Lindano, Ritouio, Trider Petro Simonio, Ioanni Vischero, Antonio Hennin, Vendeuilio, Michaëli d'Esne, Gerardo de Americour, Ioanni Six, Blazzo, Paulo Budodiffiter ingenti tio, Antonio Haueto, Francisco à Wallon-capelle, Cuyckio, Iacobo & Nicolao à Castro, Metsio, Crabelio, Gisberto Masio, Zoesio, Ophouio, Querir Ioanni à Stryen, aliisque quamplurimis; ve taceam Episcopos adhuc vipetitis d uentes, ipsosque inprimis Archipræsules Mechliniensem, & Cameracencrant a fem, quorum hic annis iam 29. ille annis 25. munus Epifcopale gesserunt? ijs sepa Adrem. Si viri estis, rationibus agite; pueris ac mulierculis relinquite querimonias. Patent Scholæ: cum animus vobis fuerit, qui adhuc defuit, odere, v iterum ac sæpius disputabitur. mmere luras.
