I V. Hæc sancta inter impuros ignes immunitas argumentum est, ejusmodi homines castitatis amantes inferiorum ignibus nunquam urendos. E familiâ beati Dominici, * vir religiosus & cognominis gravissimas iniurias & foris luces sustinuit; caro contumax & rebellis ad illicita trahebat. Difficilem reddebant pugnam diaboli, qui suos signes variis subdebat. Sed eluctatus est, & vicit constans athleta. Victi hostes proclamare cogebantur: Vicisti, vicisti, quia in igne fuisti, & non aristi. Quifquis animi puritatem diligis, & omni obsecravit aures claudis, Noli timere, meus es tu. Et quia saepius in igne fuisti, & non aristi, nec apud inferos ardebis; avernalis flamma non tanget te.

V. Quot sanctissimorum hominum in ignibus perdurariunt penitus illæsi Joannes Apostolus in balneum crudelis bullientis olei sine noxa meritis vegetor exiit quam ingressus. Polycarpus Smyrenensis Presul, vir octoginta sex annorum iussus Christo malè dicere: Et qui possum, inquit, ei malè dicere, qui mihi tot annis nil mali fecit unquam? Ad rogum igitur damnatus est. Sed virtutem ipse absolvit ignis, dum tangere veritus strueto velut à flammis fornice ambivit innocentem; nec jam lexit, sed texit, suavissimum interim in adstantes odorem ejaculatus. Ad extremum gladio confosus sanguine suo extinxit ignem; nobili nimbo, & quem imbribus suis præferat cælum. Ita divorum alii quamplurimi in ignibus intacti. Pauculos velut per satyram nominemus. Ita Dionysius Areopagita, ita Pantaleon Marry: ita Ephrem, Barlaam, Andronicus, Probus, Taracus, Theodorus, Victor, Vincentius, Petterique beatorum tabulis inscripti. Gregorius Magnus reni miram ad insitum memorans: Avo regis Tortilæ, inquit, sepe runt Gothi virum integrerrimum, cui Benedicto nomen. Hunc una cum tigurio confubere conati sunt hostes. In orbem cellulæ arserunt omnia, sed ipsa cum suo inquilino nil ignium concepit. Jamque irritiores Gothi, è domicilio virtum extraherunt præcipiti fætia, & in propinquum clibanum coquendū panibus inflammatum conseruerunt, ostio probè occluso. Sed die altero repertus est ab igne adeò illæsus, ut nec vestium quidem extrema quidquam fuerint ambueta. Ita beata Thela virgo, quæ Leones, quibus objeccta, cicuravit; tauros, quibus alligata domuit; undarum monstra, quibus immissa, vicit; ignium rogos, quos concenterat, triumphavit. Flamina, quæ nec Herculi pepercérant, pepercérunt virginis. Ita & Lucia virgo cremanda rogo imponitur. Sed lucer pulchritus suis ignibus Lucia, & è flaminis Imperatoribus mortem, Syracusanis præsentem opem, Ecclesiæ pacem varcinatur. Ita Cæcilia è balneatum ignibus, quos tyrannus succenderat, pulchrior emerit. Ita Agnes ab Aspasio addicta flammis, quas ad preces virginis ros illico extinxit. Ita Julianæ flamas, ad quas damnata fuerat, lacrymis repellit, lebetem ab igne ferventem precibus rupit. Ita Christina fætientem rogom, ardens oleum, liquatam picem, accensam fornacem, salva superavit. Ita alia virgines quamplurimæ, cum ignibus jocatae, supplicium mutante in triumphum.

Quemadmodum verò Deus tot suorum amicorum vestes & corpora in flammis servavit inviolata, sic & animos & mentes suorum inter exempla pessima, sermones spurcissimos, inter colluviem vitiorum in omnitentatione servat incorruptos. His insuper Angeli secessant, ut eos singulariter tueantur, quos præcipue amant. Cæstianus id asserens: Nulla virtute, inquit, homines Angelis imitatione conversationis aquantur, quam merito & gratia castitatis. Astimumus, obsecro, hanc suauissimam cum Angelis societatem, ob quam extrema potius omnia sunt tentanda, quam ea destituta. Hic quippe secum animo statuat: Etsi omnes, inter quos ago, fædissima loquuntur, et si tacentem rifiu & sibilis

A excipiunt, et si diabolus dies ac noctes infestet, praesidio divino fultus, Angelorum amicitia defensus haec vincam omnia, & hoc unum assidue precabitur: Mi amansissime Deus, sequor te in toto corde meo, & timeo te, quoniam non est confusio confunditibus in te. Ne tradas me in perpetuum, neque auferas misericordiam tuam à me. Domine JESU, rite es tu, tuus ego sum. Ita non timebo, nec flamma ardebit in me. Ita spes maximâ omnes adversarios à me vincentos, promissam castis lauream feliciter obtinendam. Quantum enim, Cæstianus te— Cæstianus l. 6. stet, sublimius est premium castitatis, tam gravioribus adver- c. 17. initio. siorum insidias lacestrit. Victori palma; cæstatori dede- cus & ignominia.

Daniel alterum Nabuchodonosoris somnum in- terpretatur: Interpretationis somnum est; Deus exaltat; Deus dejet, & humiliat.

A Sopos, tam festivi ingeni, quam multis fœdi, interrogatus quid faceret Jupiter? Profecto sapienter respondit istud: Excelsa deprimit, extollit humilia. Hi revera summi Numinis labores sunt, dejecte quidquid superbum & altum; quidquid submissum & humum evehere. Dispergit Deus superbos mente cordis sui; De Lue. cap. 2d ponit potentie de sede, & exaltat humiles. Hæc Dei sunt ope- v. 51. & 52. ra. Ita cum rege Nabuchodonosore, ita cum innumeris superbis aliis egit. Dispersit, depositus, excelsa depressit.

Vidit Nabuchodonosor somnum, cui nullus reprobabat interpres præter Danielē. Qui somnum ag- gressus explicare: Arbarem, inquit, quan vidisti sublimem Dan. cap. 4. atque robustam, cuius altitude pertinet ad calum, & aspectus v. 17. ad 23. illius in omni terram: & rami eius pulcherrimi, & fructus eius nimis, & eas omnium in eâ, subter eam habitantes be- fia agri, & in ramis ejus commorantes aves cali. Tu es rex, qui magnificatus es, & invalusisti: & magnitudo tua crevit, & per- venit usque ad calum, & potestas tua in terminos universa terra. Quod autem vidit rex vigilem & sanctum descendere de celo, & dicere: Succidite arborem, & dissipate illam, atta- men germe radium ejus in terra dimittite & vinciatur ferro & ore in herbis foris, & ore cali conspergatur, & cum feris sic papulum ejus, donec septem tempora mutantur super eum. Hæc est interpretatio sententia Alfridi, qui perenit super dominum meum regem. Ejiciens te ab hominibus, & cum belis feris, eris habitatio tua, & fænum ut bos comedas, & ore cali infunderis, septem quoque tempora mutantur super te, donec scias quid dominetur Excelsus super regnum hominum, & cuicunque voluerit det illud. Hanc interpretationem rex accuratam quidem & legitimam agnovit, non tamen è toto resipuit. Expectavit annum solidum divina pa- tientia, sed penitentia secuta est nulla. Vox tandem calo ruuit: Regnum tuum transibit a te. Factum ordine. Hic Dan. cap. 4. D dicendi campus multo secundissimus, distincta the- vers. 28. mata complura. Nam Daniel praefectus erat omnibus Babylonici regni provinciis, omnes ei magistratus, principes omnes subiecti. Ita Deus, quem vult extollit. Hunc proclamans David: Mibi autem, inquit, nimis honorificari sunt amici tui Deus, nimis confortatus est principatus eorum. Deus exaltat.

absumilis pharmacopolæ, qui omnia ad libellam exigit

pro libitu cruciadus dedit, unà tamen etiam impe-

Percentio autem somni subiecta v. 14, jungit: In sententia vigilum decretum est, & seruo sanctorum, Angeli dicitur & petitio. Beate mentes, Angeli, redditissime dicuntur cuncti vi. Vigiles, qui in Dei hominumque obsequiis semper exigitur. Porro ergo in celo permanebut & omnium seruiles,

§. II.

Deus humiliat. Nabuchodonosori regi somniorum interpres Daniel in os apertissime dixit: Ejicent te ab hominibus, & cum bestiis serfus eris habi-

A ratio tua, & sanum ut bos comedes, & rore cali infundoris; semper quoque tempora mutabantur super te, donec sis, quod dominetur Excelsum super regnum hominum, & cunctum regnuerit, det illud. Ita Deus superbos iubet sedere humi, tamque frigidum eis jentaculum apponit prandendum & cenandum cum bestiis: boun & onagrorum lactucæ, hominum fiunt delicie. Quæ verò hæc dicendi sunt libertas, in os tanto regi dicere: Ita res agentur: Euançie te ab hominibus; feram ages inter feras. Fuerint qui prius centies deliberationem habuissent, quam ista talia dixissent regi. Quis enim timidiiorum non ita secum traxisset: Si nuntium feram tam ingratum, si ista proloquar tam liberè privabor meo munere, collectam gratiam omnem effundam, in discrimen capitis certissimum me coniiciam: præstat igitur tacere. At verò Daniel longè alter ratiocinatus: ut ut sint ista, veritatem hic celare nefas. Hæc aulicis consiliariis, hæc palatinis optimatibus altissimè imprimenta. Commeditandum est non quâ ratione vafræ artificioseque dicenda construamus, & ex ambiguo loquamur, ne principales aures offendamus, sed potius quâ libertate in lucem efferramus veritatem. Augustus Imperator ob impudicitiam filia Juliae contrâcata jam infamia altum ingenitilem: Horum, ejebat, nihil mihi accidisset, si Agrippa aut Mæcenæ vixisset, viri ab ingenuâ dicendi libertate plurimum commendandi.

V. Deus exaltat Dominatur Excelsus in regno hominum, & cuicunque voluerit dat illud, & humillimum hominem constituit super eum. Hoc Deus sapientia factivit; ab omnibus, & ab annis assumptis reges. E latrone factus est Jephite princeps. Arfases è latrone rex Parthorum et creatus. Rex Lydorum Gyges pastor fuit. Darius Hyastaspis rex Cyri regis armigerum egit. Valentianus Imperatoris parens fuit restio. Tamerlanes rex Tatarorum bubulcus fuit. Agathocles Syracusanorum rex parentem figurum non erubens saxe abacos hunc Samio, testeque valvis oneravit. Autelianus & Diocletianus humile loco oriundi. Tullus Hostilius rex inter armentarios censemebatur. Maximinus Imperator ab omnibus ad diadema pervenit. Maximi Puppieni parens fuit cultellarius. Justinus I. Imperator à subulco ad subulci dignitatem promovit, à bubulco ad machaeropai officinam transiit, ex officinâ ad militiam prosluit, è milite factus Imperator. Mahometes jam pñne Deus, aliquando fuit camelarius. Othomannica Imperatoria domus origo & caput Othomannus I. ruficis parentibus est prognatus. Ita dominatur Excelsus in regno hominum, & cuicunque voluerit, dabit illud, & humillimum hominem constituit regem.

Quæstiones poni solent inanæ: Quis hominum inter
vivos sanctissimus? quis Luciferi sedem occupaturus?
Ad utrumque commode responderetur: Sanctissimus, qui
humillimus, sive ipse despiciens etiam summum illuc
futurus, quisquis hic fuerit ex virtute inus. Er an non
istud cuivis maximum sit calcar ad animi submissionem
ardentissime secundam? ira quidem ut si non licet
præmium primum consequi, & inter primos confisteret,
saltet alterum obtineat, & in secundis confisterat. Ne-
que ad eam rem opus rigidi jejuniis, aut aperis eliciuntur,
aut quotidianis extentiq; vigiliis, aut precibus affiduntur.
Ab hoc brabeo consequendo nullus hominum ordo,
ætas, sexus excluditur, pater omnibus. Vicisti, si serio
velis vincere. Quid tibi opus est, ai Seneca, ut sis bonus Velle. Sunt
Brabeutes Christus æquè favet omnibus, humillimo dat multum;
brabeum. Quin igitur hoc unicè agimus, ut nos in om-
nibus & adversus omnes quam maximè submittamus?
Sola verò exterior submissio, quæ tritat vester, san-
ctas ceremonias, humiles gestus, depressoas voces maxi-
mè spectat, lenta nimis & invalida est ad præmium tam
nobile obtinendum. Deus exaltat, sed hominem vetet
humilem. Humillimum constituerat super eum.

VII. Deus humiliat. Omnia venerunt super Nabuchodonosor regem. Eadem horā sermo completus est super Nabuchodonosor, & ex hominibus abjectus est, & fenum ut bos comedit, & rore cali corpus ejus infectum est, donec capilli ejus in similitudinem aquilarum crescerent, & ungues ejus quasi avium. O Deus, cuius providentia in sui dispositione non fallitur, quam omnia in mensurā & numero, & pondere dispositi sunt! Nec vocula, nec syllabula, nec punctulum, nec apiculus, nec momentum unicum divinae sanctio erat. Testatus id Christus: *Iota unum, inquit, aut unus apex non prateribit à legē donec omnia fiant, prout æternæ & inconclusa veritas decrevit.* Salvo tamen humano arbitrio, cui nullam vim faciunt decreta cælestia. Nam, ut hīc quām castigatissime loquuntur, damnationis causa non est prævisio, sed causa prævisionis est damnatio. Reī exemplo monstramus. Videlicet quis ē tertiū Hierosolymis Judam Iscariotum collum laqueo inferentem, & continuo pronuntiavit: Miser hic certissimē se suspendet. Prævisio & prædictio non fuit causa suspendi, sed prævisionis ac prædictionis causa fuit suspendi. Idem in aliis, quæ ab humana pendent voluntate.

A cibetur superbia. Loquamur, mi lector, inter nos amissimè. Si quis sapiens & sanctus, vel duos solum pileos, sed aureos, possit in concordiam singram ac stabilem componere, brevi omniā locutus. Fieret, quod promisit Christus: *unum ovile, & unus flor.* Sed haec tenus ad eam Orbis beatitudinem non pertinet. Quid impedimento fuit? Id unum in quo omnis perditio sumit in pītū. Aurei duo pilei ad hoc temporis non poterunt aut mortalium ullō persuaderi, ut alter aliorum minimum elationis. Merum, letalissimum venenum omnis arrogancia. Subito ex alto Deus fulminat atrox & elatos. Regna dividit prout vult, & humiliū hominum super ea constituit. Fuge superbiam, fuge; & omnium vitiorum originē declinasti.

C A P U T X R

Daniel Nabuchodonosori suadet eleemosynas. Quod in iis ergo maximū fit impedimentum?

Daniel Nabuchodonosori somnium de arbore succidēta fidelissimē interpretatus: Tu es, inquit, arbor illa, quam vidisti sublimem atque robustam, cuius altitude pergit ad celum, & aspectus illius in omnem terram, & rami eius pulcherrimi, & fructus eius nimius, & essa omnium in ea. Subter eam habitantes bestiae agri, & in rāmis eius commorantes agri tali. Tu es, inquit, hæc arbor, quam vidisti. Hæc est autem interpretatio sententie. Altissimi: Ego te ab hominibus & cum bestiis feris, erit habitatio tua. Neque hoc pauculos dies, aut semestre spatium, sed septimum annū pacem placat. Detecto & aperto ulceri mala- gma impedita manus comitem, qua peccata redimantur. In Gazo- largioribus eleemosynis. De eleemosynā singulare libro in Gazo- hyblacio jam egimus. Hic ergo jam ista solū explicanda. Cui Daniel Nabuchodonosori solas suaferit eleemosynas: Christi, quod anno 1617. deinde, quidnam sit potissimum quod ab eleemosynis editum, largiendis retrahat.
